PROFESSIONAL PROFILE

Technology professional with experience spanning data analytics, business systems, technical instruction, stakeholder support, and customer-facing environments.

Holds a BSc Honours in Information Technology and has developed analytical applications, dashboards, automation tools, and data-driven solutions using Python, SQL, Streamlit, and modern reporting technologies.

Combines strong communication, problem-solving, and documentation skills with experience translating business requirements into structured analytical outputs and user-focused solutions. Passionate about leveraging technology, data, and continuous learning to solve real-world business challenges.

TECHNICAL SKILLS

Programming & Development

- Python
- SQL
- REST APIs
- Git
- GitHub

Data & Analytics

- Pandas
- NumPy
- Plotly
- Excel
- Power BI (Basic)

Databases & Platforms

- SQLite
- MySQL
- Streamlit

Professional Skills

- Stakeholder Communication
- Technical Documentation
- Reporting
- Training & Facilitation
- Problem Solving

EDUCATION

- **Bachelor of Science Honours (NQF 8) – Information Technology**

Richfield Institute of Technology, South Africa

Academic Distinctions:

- Information and Cyber Security
- Research Methodology
- Honours Research Project

Honours Research Project:

Detecting Misinformation Through Media Bias and Style Analysis: Localizing Global Bias Detection Frameworks to South African Online News Media

FEATURED PROJECTS

Employee Retention Analytics & Simulation Platform

- Developed a Streamlit application for workforce analytics and employee retention modelling
- Technologies: Python, Pandas, Scikit-learn, and Plotly
 - <https://employee-retention-simulator.streamlit.app/>

Portfolio Website

- Designed and developed a GitHub-hosted professional portfolio showcasing analytics, software development, and research projects.
- Technologies: HTML, CSS, GitHub Pages
 - https://brendan36.github.io/brendan_elario_portfolio/

News Analytics Pipeline

- Built automated data collection, transformation, storage, and visualization workflows.
- Technologies: Selenium, SQLite, Python, and interactive dashboards.

Media Bias & Misinformation Detection Research

- Honours research project applying NLP and machine learning techniques to identify media bias and misinformation within South African online news media.

Automated Trading System (In Development)

- Developing a modular Python-based trading platform featuring market data ingestion, technical analysis, data visualization, automation, and broker API integration.
- Technologies: Python, SQLite, Pandas, Plotly, APIs

RELEVANT PROFESSIONAL EXPERIENCE

Technical Sales & Systems Support | CommerceQuest (2015 – 2018)

- Supported SaaS solution delivery through requirements gathering, documentation, CRM administration, and client support.
- Supported CRM administration, reporting activities, and client-facing system support within a SaaS environment.
- Acted as liaison between customers and technical teams to clarify requirements.

ADDITIONAL PROFESSIONAL EXPERIENCE

Online ESL Instructor | OpenEnglish | (Part-time, Remote) 2020 - Present

- Deliver structured virtual instruction and support to adult learners across international markets.
- Analyze learner performance and adapt communication strategies to improve outcomes and engagement.
- Facilitate one-to-one and group sessions while maintaining consistently high learner satisfaction scores.

International Educator | Thailand | 2023 – 2025

- Delivered classroom instruction and digital learning content within Thailand's English Program.
- Designed and implemented technology-supported learning resources and multimedia materials.
- Managed learner performance tracking and reporting while supporting diverse educational environments.

Sales Executive – Yamaha Distributors SA | 2021 – 2023

- Supported sales operations through accurate CRM updates and client data management.
- Assisted with sales pipeline tracking, reporting, and performance summaries to support management decision-making.
- Coordinated between sales teams, management, and customers to ensure smooth operations.

Business Manager | Fusion Street Foods (2018 – 2020)

- Managed operational reporting, scheduling, supplier coordination, and business performance monitoring.
- Maintained sales, inventory, and cost records to support operational decision-making.
- Developed and documented workflows to improve operational efficiency.
